Induction Cooktops

A whole new way to cook.

Maximize Your Time

PowerPlus™ Induction technology boils water in less than 2 minutes so you can shave time off of cooking.

Gas Benefits, Without the Remodel

Our PowerPlus™ Induction Cooktop offers the speed, control, and consistency of gas without converting your kitchen from electric to gas.

Flexible Cooking

SpacePro™ Bridge Element allows you to cook two separate dishes at once, or combine elements for large pots or griddle-use. The cooktop adapts to the size of the pan whether it's a small pot, a large frying pan, or a griddle.

Consistent Results

Even heat eliminates hot spots and delivers consistent results for creating delicious, evenly cooked foods like steaks and omelets.

Cool Cooktop, Simple Clean-up

Cool-to-the-touch cooktop generates heat directly to the pan, not the cooktop, so spills can't burn on.

Gas Cooktops

Bold appearance and high performance.

PowerPlus™ Burner

Boil, sear, and saute with power. The PowerPlus™ Burner delivers a strong performance, every time with 18,200 BTU.

Durable, Continuous Grates

Cook a variety of dishes at the same time with ease. Our durable, continuous cast-iron grates allow you to slide a variety of heavy pots and pans across burners.

PrecisionPro Controls™

Prepare a range of dishes with precision, whether you're simmering, sautéing, searing or boiling.

Freestanding Induction Ranges

Precise control with show-stopping design.

Easy to clean cooktop

Unlike traditional electric and gas cooktops, induction only heats the pan and the food in it, so the area around the pan stays cooler, allowing you to clean up spills and splatters while you cook.

No Preheat

Eliminates time wasted waiting on your oven to heat up, simply place your food in the cold oven and get to meal time, in no time.
